Title	Government Property Index - GPI		
Abstract	The Government Property Index (GPI) allows the general public to view and search basic information on NSW Government-owned land and view it on a map through the NSW Planning Portal – Spatial Viewer.		
	The final dataset was derived through the implementation of the following inputs -		
	• GPR		
	Crown Lands (DCDB)		
	National Parks		
	Land Parcels (DCDB)		
	Spatial Services		
	PlanningDB		
	Property (GURAS)		
	Furthermore, there are five data fields which are in-scope for the GPI -		
	1. Lot / Section / Plan		
	2. Address		
	3. Area		
	4. Zone		
	5. Local Government Area (LGA)		
	Two special cases are Crown Land data and National Parks data, which were obtained by 'intersecting' the land parcels (Lot/Section/Plan) against the Crown Land Polygon and the National Parks (Estate) Polygon respectively.		
	Through the combined processing of these inputs into the GPI database, the final spatial data was added onto the NSW Planning Portal – Spatial Viewer for consumption by the public.

Lineage
---------

The following inputs were used to derive the final data -

- GPR
- Crown Lands (DCDB)
- National Parks
- Land Parcels
- Spatial Services
- PlanningDB
- Property (GURAS)
