

Title	Repealed - State Environmental Planning Policy (Sydney Region Growth Centres) 2006
Alternative title(s)	SEPP (Sydney Region Growth Centres) 2006
Abstract	<p>This is a repealed State Environmental Planning Policy and has been superseded by the State Environmental Planning Policy (Precincts - Central River City) 2021 as part of the Department's initiative to consolidate State Environmental Planning Policies to simplify and provide certainty to the planning system. Provisions from this SEPP have been carried over in the following SEPPs:</p> <ul style="list-style-type: none"> • State Environmental Planning Policy (Precincts - Central River City) 2021. Click here to go to the Open Data Page: https://www.planningportal.nsw.gov.au/opendata/dataset/state-environmental-planning-policy-precincts-central-river-city-2021 • State Environmental Planning Policy (Precincts - Western Parkland City) 2021. Click here to go to the Open Data Page: https://www.planningportal.nsw.gov.au/opendata/dataset/state-environmental-planning-policy-precincts-western-parkland-city-2021 <p>Go to the following link to find out more about the new consolidated SEPPs: https://www.planning.nsw.gov.au/Policy-and-Legislation/State-Environmental-Planning-Policies/Consolidated-state-environmental-planning-policies</p> <p>This historical record contains the State Environmental Planning Policy (Sydney Region Growth Centres) 2006 for Dwelling Density, Flood, Floor Space Ratio, Growth Centres, Height Of Building, Heritage, Land Application, Land Reservation Acquisition, Land Zoning, Lot Size, Native Veg Protection, Precinct Boundaries, Riparian Lands Watercourses, Special Provision, Special Areas.</p>

Lineage

This spatial dataset reflects the current planning legislation in NSW in particular the maps and legislation published on the NSW legislation website (www.legislation.nsw.gov.au). The data production usually occurs in conjunction with the development of the Environmental Planning Instrument (EPI) it is connected to. Original data inputs are produced by Local Government or the Department according to map and data standards developed by the Department and published externally via the website. These data inputs are checked by data and cartographic staff as well as planning staff internally against the map and data standards as well as for accurate content. Once the planning instrument is notified, the input data will be incorporated into the relevant EPI datasets. The quality management processes involved in the data production to this point are routinely screened by internal and external auditors for certification under ISO 9001 - Quality Management Systems. At this point the various datasets are then combined into a new normalised data schema to suit the requirements of the online Planning Viewer. This occurs via various automated ETL processes. Although every care is taken in ETL processes to maintain accuracy sometimes differences between inputs and final normalised data can occur.
