Title	Environmental Planning Instrument - Heritage (HER)
Alternative title(s) EPI - HER	
Abstract	This spatial dataset identifies areas subject to Heritage conservation as designated by the relevant NSW environmental planning instrument (EPI) under the Environmental Planning and Assessment Act 1979. The specific EPI which defines the planning requirement is described in the attribute field LEP_Name. The EPI can be viewed on the NSW legislation website: www.legislation.nsw.gov.au.
	Contact data.broker@environment.nsw.gov.au for a data package (shapefile).

Lineage	legislation published or usually occurs in conju is connected to. Origin to map and data stand These data inputs are against the map and d notified, the input data involved in the data pr for certification under then combined into a r Viewer. This occurs via	lects the current planning legislation in NSW in particular the maps and in the NSW legislation website (www.legislation.nsw.gov.au). The data production inction with the development of the Environmental Planning Instrument (EPI) it al data inputs are produced by Local Government or the Department accordina ards developed by the Department and published externally via the website. checked by data and cartographic staff as well as planning staff internally ata standards as well as for accurate content. Once the planning instrument is will be incorporated into the LEP dataset. The quality management processes oduction to this point are routinely screened by internal and external auditors ISO 9001 - Quality Management Systems. At this point the various datasets are new normalised data schema to suit the requirements of the online Planning various automated ETL processes. Although every care is taken in ETL accuracy sometimes differences between inputs and final normalised data car
