| <b>Title</b>                                  | Rectified and radiometrically corrected Landsat imagery 1988-2010   |
| <b>Abstract</b>                               | These are the pre-processed Landsat images that are used to generate all other Landsat products. They are rectified to a map projection and adjusted for the effects of the atmosphere, sun angle, view angle and topography. They can be used to generate remote sensing products for other applications.  |
