CONFIDENTIAL

As a resident of Federal, the location for numerous reality TV productions, I wish to voice my disapproval of such drivel, given approval to impact life in our small village.

Recent disruptions and unauthorised earth works, along with a non-compliant crew member with covid, have done nothing to endear such mammoth productions to our community. If anything the values these programmes inflict on society should be seen for the "Train Wrecks" they perpetrate.

Federal was not designed to be a film set, along with all the extra traffic movements, sightseers, and hangers on it attracts. The making of such garbage should be seen for the distortion, extortion and outright manipulation of gullible victims that it is, perpetrated by a network only interested in maximising already obscene profits.

Reality TV is not "Low Impact". If it must be inflicted on an audience, it's production should be limited to 30 days, once a year, and subject to LGA approval.

If I had my way, it would be seen as the crime it is, and subject to obscenity laws.

I agree to the above statement

Yes
