### Submission

I object to film companies coming to an area and portraying it in a light that does not represent the community. The local community is affected by reality TV programs that show the "glamour" side of an area but do not show the real situation, thus hiding the problems of a community.

Unlimited filming on private property should not occur. The neighbours that are affected are never fully compensated and have to put up with noise, excess traffic, night shoots and unauthorised building/renovation work. The landowner is often

well compensated. The community is ignored and often left with a bad taste in the mouth as a result of such work.

**I agree to the above statement**
