**DEVELOPMENT APPLICATION 8861 – BULLOCKS FLAT SKITUBE TERMINAL AREA,
KOSCIUSZKO NATIONAL PARK, L'ETAPE AUSTRALIA VILLAGE**

Dear Sir

Roads and Maritime Services (RMS) refers to your correspondence dated 31 October 2017 regarding the subject development application.

RMS notes that the applicant is seeking consent for temporary infrastructure associated with the L'Etape event as shown in the submitted documentation.

RMS does not object to the development application in principle, noting that RMS' Special Events and Operations Planning unit has previously commented on the traffic arrangements directly to the event organiser via planning meetings held for this event.

RMS advises that the developer must apply for, and obtain a Road Occupancy Licence (ROL) from the RMS Traffic Operations Unit (TOU) prior to the event. The ROL application would require a traffic management plan (TMP) to be prepared by a person who is certified to prepare Traffic Control Plans. RMS recommends that the application be lodged a minimum of one month prior to the event.

The Guide to Traffic and transport Management for Special Event provides guidance on traffic management for events. A copy of the guide can be downloaded from:

http://www.rms.nsw.gov.au/trafficinformation/downloads/tmc_specialevents_dl1.html

For more information on the ROL process, please contact the Network Operations Coordinator on 4221 2509.

If you have any questions please contact Kristian Pinochet on (02) 4221 2580.

Please ensure that any further email correspondence is sent to development.southern@rms.nsw.gov.au.

Yours faithfully

A handwritten signature in blue ink, appearing to read 'Chris Millet'.
