

Development consent

Section 4.16 of the *Environmental Planning and Assessment Act 1979*

As delegate of the Minister for Planning, under delegation executed on 9 March 2022, I approve the Development Application referred to in Schedule 1, subject to the conditions in Schedule 2.

These conditions are required to:

- prevent, minimise, or offset adverse environmental impacts;
- set standards and performance measures for acceptable environmental performance;
- require regular monitoring and reporting; and
- provide for the ongoing environmental management of the development.

Daniel James
Team Leader
Alpine Resorts Team
Department of Planning and Environment

Jindabyne

20 October 2022

SCHEDULE 1

Development Application No.:	DA No. 10379
Applicant:	Langlauf Ski Club Co-op Society Ltd
Consent Authority:	Minister for Planning
Site:	Langlauf Ski Club (Lot 90 DP 756697), 80 Burramys Road, Perisher Valley, Perisher Range Alpine Resort
Type of Development:	General Development
Integrated Bodies:	Nil
Approved Development:	Change of use of ground floor locker room into a bedroom and associated minor internal alterations to an existing tourist accommodation building as outlined in Condition A.2

DEFINITIONS

Act	means the <i>Environmental Planning and Assessment Act, 1979</i> (as amended).
Applicant	means Langlauf Ski Club Co-op Society Ltd, or any person carrying out any development to which this consent applies.
Approval Body	has the same meaning as within Division 4.8 of Part 4 of the Act.
BCA	means the edition of the Building Code of Australia in force at the time of lodgement of an application for a Construction Certificate.
Certifier	has the same meaning as in Part 6 of the Act.
DA No 10379	means the development application lodged on 1 June 2020.
Department	means the Department of Planning and Environment, or its successors.
Development	means the development approved pursuant to this consent, as defined in Condition A.2 and as modified by the conditions of this consent.
Director	means the Director of Regional Assessments or a delegate of the Director of within the Department.
EP&A Regulation	means the <i>Environmental Planning and Assessment Regulation, 2021</i> (as amended).
EP&A Regulation (DCFS)	means the <i>Environmental Planning and Assessment (Development Certification and Fire Safety) Regulation, 2021</i> (as amended).
Minister	means the Minister for Planning, or nominee.
NPWS	means the National Parks and Wildlife Service, or its successors.
Non-compliance	means an occurrence, set of circumstances or development that is a breach of this consent.
Park	means the Kosciuszko National Park reserved under the <i>National Parks and Wildlife Act 1974</i> .
Precincts-Regional SEPP	means the <i>State Environmental Planning Policy (Precincts - Regional) 2021</i> (as amended), that includes Chapter 4 – Kosciuszko National Park and alpine resorts.
Principal Certifier	means the Principal Certifier and has the same meaning as Part 6 of the Act.
Rehabilitation Guide	means the NPWS document entitled: <i>Rehabilitation Guidelines for the Resorts Areas of Kosciuszko National Park</i> (2007) a copy of which is available at: https://www.environment.nsw.gov.au/research-andpublications/publications-search/rehabilitation-guidelines-for-theresort-areas-of-kosciuszko-national-park
Secretary	means the Secretary of the Department, or nominee/delegate.
Secretary's approval, agreement or satisfaction	means a written approval from the Secretary or nominee/delegate.
Stockpile Guide	means the NPWS document entitled: ' <i>Soil Stockpile Guidelines for the Resort Areas of Kosciuszko National Park, October 2017</i> ', a copy of which can be obtained from the NPWS Resorts Environmental Services Team.
Subject site	has the same meaning as the land identified in Part A of this schedule.
Team Leader	means the Team Leader of the Alpine Resorts Team within the Regional Assessments division (or its successors) or a delegate of the Team Leader of the Alpine Resorts Team within the Department.

SCHEDULE 2

PART A – ADMINISTRATIVE CONDITIONS

A.1. Obligation to minimise harm to environment

In addition to meeting the specific performance measures and criteria established in this consent, all reasonable and feasible measures to prevent, and if prevention is not reasonable and feasible, minimise, any material harm to the environment that may result from the construction and operation of the development.

A.2. Development in accordance with approved documentation and plans

The development may only be carried out in accordance with the:

- (a) conditions of this consent; and
- (b) DA No. DA 10379 submitted by Langlauf Ski Club Co-op Society Ltd on 1 June 2020 as amended by the additional information received during the assessment of the application:

Ref No.	Document	Title/Description	Author / Prepared by	Date	Document Reference
1	Report	Amended Development Application	Tim Alexander	11 August 2022	-
2	Plan	Langlauf Ski Club – Locker Room Conversion	Tim Alexander	10 August 2022	-
3	Plan	Site / Roof Plan	Tim Alexander	10 August 2022	GA01B
4	Plan	Basement and Main Floor Plans	Tim Alexander	10 August 2022	GA02B
5	Plan	Loft Plan and Section A-A	Tim Alexander	10 August 2022	GA03B
6	Plan	North, South, East and West Elevations	Tim Alexander	10 August 2022	GA04B

Note: In accordance with section 24(3)(a) of the EP&A Regulation, a Development Application is lodged on the day on which the fees payable for the Development Application under the EP&A Regulation are paid.

A.3. Inconsistency between documents

The conditions of this consent prevail to the extent of any inconsistency, ambiguity or conflict between them and a document listed in Condition A.2. In the event of an inconsistency, ambiguity or conflict between any of the documents listed in Condition A.2, the most recent document prevails to the extent of the inconsistency, ambiguity or conflict.

A.4. Lapsing of consent

This consent lapses five years after the date of consent unless work for the purposes of the Development is physically commenced.

A.5. Prescribed conditions

All works shall comply with the prescribed conditions of development consent as set out in Part 4, Division 2 of the EP&A Regulation. In particular, your attention is drawn to:

- (a) section 69, Compliance with Building Code of Australia; and
- (b) section 70, Erection of signs during building and demolition works.

A.6. Australian standards

All works which are part of the Development must be carried out in accordance with relevant current Australian Standards.

A.7. Legal notices

Any advice or notice to the consent authority must be served on the Secretary.

A.8. Non-Compliance Notification

The Department must be notified in writing to compliance@planning.nsw.gov.au and alpineresorts@planning.nsw.gov.au within seven days after the Applicant becomes aware of any Non-compliance. The Principal Certifier must also notify the Department in writing to compliance@planning.nsw.gov.au and alpineresorts@planning.nsw.gov.au within seven days after they identify any Non-compliance.

The notification must identify the Development and the application number for it, set out the condition of consent that the Development is Non-compliant with, the way in which it does not comply and the reasons for the Non-compliance (if known) and what actions have been, or will be, undertaken to address the Non-compliance.

A Non-compliance which has been notified as an incident does not need to also be notified as a Non-compliance.

A.9. Excluded development

- (a) The loft space is not to be utilised for sleeping or any habitable purposes.
 - (b) No external work is approved as part of this consent.
-

PART B – PRIOR TO THE ISSUE OF A CONSTRUCTION CERTIFICATE

B.1. Construction certificate

Building and demolition works must not commence until a relevant construction certificate has been issued. Prior to the issue of the construction certificate, the Certifier must be satisfied that the documentation for the construction certificate demonstrates compliance with the conditions in Part B of this consent.

If the Department is not appointed as the Certifier, the Applicant must provide a copy of the construction certificate to the Department within 2 days of it being issued by the Certifier.

B.2. Documentation for the construction certificate

The proposed works must comply with the applicable performance requirements of the BCA to achieve and maintain acceptable standards of structural sufficiency, safety (including fire safety), health and amenity for the ongoing benefit of the community. Compliance with the performance requirements can only be achieved by:

- (a) complying with the deemed to satisfy provisions; or
- (b) formulating a performance solution which:
 - (i) complies with the performance requirements;
 - (ii) is shown to be at least equivalent to the deemed to satisfy provision; or
 - (iii) a combination of (i) and (ii).

B.3. Building works plan

Prior to the issue of the construction certificate, the Applicant must submit to the Certifier building work plans that demonstrates compliance with:

- (a) the relevant clauses of the BCA; and
- (b) this development consent.

Note: The appropriate building work plans and specifications must include, but not limited to, the following (where relevant to the approved Development):

- (a) detailed building work plans, drawn to a suitable scale and consisting of a block plan and a general plan, that show the following:
 - (i) a plan of each floor section,
 - (ii) a plan of each elevation of the building,
 - (iii) the levels of the lowest floor, an unbuilt yard or area that belongs to the lowest floor and the adjacent ground,
 - (iv) the height, design, construction and provision for fire safety and fire resistance, if any,
- (b) building work specifications that:
 - (i) describe the construction and the materials to be used to construct the building, and
 - (ii) describe the method of drainage, sewerage and water supply, and
 - (iii) state whether the materials to be used are new or second-hand and contain details of any second-hand materials to be used.

B.4. Specifications

Prior to the issue of the relevant construction certificate, the Applicant shall provide to the Certifier specifications for the development demonstrating compliance with the BCA:

- (a) that describe the construction and materials of which the buildings, services and infrastructure are to be built, and
- (b) that state whether the materials to be used are new or second-hand and (in the case of second-hand materials) give particulars of the materials to be used and manner of use.

B.5. Upgrading of building

- (a) Prior to the issue of a construction certificate the following must be submitted to the satisfaction of the certifier:
 - (i) a report relating to the change of use of the ground floor locker room into a bedroom prepared by a BCA consultant or fire engineer assessing compliance with the relevant performance provisions of Volume 2 of the Building Code of Australia (BCA) for the suitability as a bedroom and habitable space;
 - (ii) if the above report has identified deficiencies an upgrade strategy or performance solution shall be prepared; and
 - (iii) any upgrade strategy shall include a schedule of works must be undertaken as part of the development;
- (b) Plans, specifications and details demonstrating compliance with these conditions must be submitted to the certifier prior to the issue of any construction certificate.

B.6. Existing and proposed fire safety measures

Prior to the issue of the relevant construction certificate, the Applicant shall provide to the certifier:

- (a) a list of any existing fire safety measures provided in relation to the land or any existing building on the land, and
- (b) a list of the proposed fire safety measures to be provided in relation to the land and any building on the land as a consequence of the building work.

Section 14(3) of the *Environmental Planning and Assessment (Development Certification and Fire Safety) Regulation 2021* provides that a certifier must not issue a construction certificate for alteration building work unless, on completion of the building work, the fire protection and structural capacity of the building will not be reduced.

As a result, any existing fire safety measures are to remain and be included in the fire safety schedule.

B.7. Site environmental management plan (SEMP)

Prior to the issue of any construction certificate, a SEMP must be provided to the Certifier. The plan should include details for site management, such as the following where relevant:

- (a) erosion and sedimentation control management detail;
 - (b) management of native vegetation;
 - (c) waste management;
 - (d) noise and vibration pollution;
 - (e) air pollution;
 - (f) fuels and chemicals;
 - (g) vehicle parking, machinery access and material storage; and
 - (h) emergency procedures.
-

PART C – PRIOR TO THE COMMENCEMENT OF WORKS

C.1. Notification of commencement

- (a) The Applicant must notify the Department in writing, at least 48 hours prior, of the date of commencement of physical work for the Development.
- (b) If the construction of the Development is to be staged, the Applicant must notify the Department in writing at least 48 hours prior to each construction stage, of the commencement date and extent of works to be carried out for the Development in that stage.

C.2. Temporary fencing

Prior to any relevant works which are part of the Development commencing, the construction works area shall be fenced with temporary site security fencing. This fencing is to clearly delineate the construction works area and shall keep the disturbance area to a minimum. This is to restrict access and also prevent unauthorised persons entering the construction work area.

C.3. Implementation of site environmental management measures

Prior to any relevant works which are part of the Development commencing, all site environmental management measures in accordance with the approved documentation (Condition A.2), the SEMP (Condition B.7) and these conditions of consent, shall be in place and in good working order.

C.4. Protection of adjacent vegetation areas

The Applicant must manage the Subject site appropriately and ensure that measures are in place to ensure that vehicles and machinery do not enter into areas of vegetation that are not necessary for the purposes of the Development.

C.5. Machinery and storage

- (a) All equipment, machinery and vehicles used during construction of the Development must be cleaned prior to entry into the Park and prior to Subject site mobilisation to ensure they are free of mud and vegetative propagules.
- (b) Equipment, machinery and vehicles must be regularly maintained and manoeuvred to prevent the spread of exotic vegetation. Storage of equipment, machinery, vehicles and material is to be restricted to existing disturbed areas and not be stored on native vegetation.

C.6. Plumbing and drainage works

If plumbing and drainage works are required, prior to the commencement of works which are part of the Development, a notice of work must be pre-notified to the plumbing regulator (NPWS Perisher Team) in accordance with *Plumbing and Drainage Act 2011*. For more information, please refer to the NPWS website:

<https://www.environment.nsw.gov.au/topics/parks-reserves-and-protected-areas/park-management/alpine-resort-management/our-services/plumbing-and-drainage>

A copy of the notice of works must also be provided to the Department.

PART D – DURING CONSTRUCTION

D.1. Approved plans and documentation to be on-site

A copy of the approved plans and documentation must be kept by the Applicant on the Subject site at all times and be readily available for perusal by the Principal Certifier, any person associated with the construction works, or an officer of the Department or NPWS. Without limitation, this condition applies to the following approved documentation:

- (a) this consent and its schedule of conditions;
- (b) the approved documentation and plans (Condition A.2); and
- (c) the SEMP (Condition B.7).

D.2. Construction hours

All work in connection with the proposed Development may only be carried out between the hours of 7.00am and 6.00pm on Monday to Friday inclusive, and 7:00am to 1.00pm on Saturdays, with no work allowed on Sunday or gazetted public holidays in New South Wales, or as otherwise approved by the Secretary.

D.3. Construction period

- (a) All demolition, civil and construction works which are part of the Development may only occur in the 'summer period'. For the purposes of this condition, the 'summer period' means the period of time commencing after the October long weekend and ending no later than 31 May the following year in each year works are required to complete the Development, or as otherwise approved by the Secretary or nominee.
- (b) By 31 May in each year works are required to complete the Development, the Applicant must ensure that the Subject site is made safe and secure by undertaking the following:
 - (i) removal of all materials, vehicles, machinery, equipment, and the like;
 - (ii) removal and/or securing of all stockpiles of soil and gravel;
 - (iii) ensuring the Subject site is fenced with para-webbing or other suitable visible protection fencing around the perimeter of the site to limit access to and from the site;
 - (iv) appropriate signage must be erected outlining that unauthorised access to the Subject site is prohibited and that the site is a construction zone;
 - (v) all external plumbing and drainage works are to be completed;
 - (vi) any excavations are to be made safe and secure;
 - (vii) stabilisation and rehabilitation works must be implemented in accordance with these conditions of consent and the approved documentation; and
 - (viii) any other specific matters related to making the Subject site safe and secure raised by the Principal Certifier or the Secretary.

D.4. Construction activities and management

- (a) At all times, construction activities shall be undertaken in accordance with the approved documentation.
- (b) All construction activities shall be confined to within the construction zone.
- (c) No disturbance is permitted outside the construction zone unless otherwise agreed by the Secretary.

D.5. Aboriginal heritage

- (a) Should any material suspected of being an Aboriginal relic or artefact become unearthed in the course of works which are part of the Development, the Applicant must immediately:
 - (i) cease all works impacting the suspected relic or artefact; and
 - (ii) contact the NPWS to arrange for representatives to inspect the Subject site.

- (b) The Applicant must ensure that all workers on the Subject site are made aware of the requirements of paragraph (a).

D.6. Waste

All waste must be contained in receptacles and covered daily, or removed from the Subject site each day, so as not to escape by wind, water or scavenging fauna. These receptacles must only be located in previously disturbed areas and not beneath the canopy or over roots of any trees. The receptacles must be cleaned regularly.

D.7. SafeWork NSW

The Applicant must ensure that all works which are part of the Development are carried out in accordance with current SafeWork NSW guidelines.

D.8. Site notice

The Applicant must ensure that site notice(s) are prominently displayed at the boundaries of the Subject site for the purposes of informing the public of Development details. The notice(s) is/are to satisfy all but not be limited to, the following requirements:

- (a) The notice is to be durable and weatherproof and is to be displayed throughout the construction phase of the Development.
- (b) The notice(s) must list the approved hours of work, the name of the Applicant or other principal contractor for the work (if any), and include a 24 hour contact phone number for any inquiries, including construction/noise complaints.
- (c) The notice(s) is/are to be mounted at eye level on the perimeter hoardings/fencing and is to state that unauthorised entry to the site is not permitted.
- (d) The name, address and phone number of the Principal Certifier is to be identified on the notice(s).

D.9. Prohibition of hazardous materials

No hazardous or toxic materials or dangerous goods may be stored or processed on the Subject site at any time unless otherwise agreed by the Secretary or nominee.

D.10. Dirt and dust control measures

The Applicant must ensure that adequate measures are taken to prevent dirt and dust from affecting the amenity or environment of the adjoining areas during the construction phase of the Development.

D.11. Safety demarcation

During the construction phase of the Development, the Applicant must ensure that the Subject site is clearly identified and signed to prevent access by unauthorised persons.

D.12. Noise and vibration management

Excavation and construction works must be managed in accordance with Australian Standard AS 2436-2010 *Guide to noise and vibration control on construction, demolition and maintenance sites* and to ensure there is no adverse impact on any neighbouring/affected tourist accommodation buildings during the construction phase of the Development.

D.13. Loading and unloading of construction vehicles

All loading and unloading associated with construction work which is part of the Development must be restricted to those areas approved in the SEMP (Condition B.7) and these conditions.

D.14. Maintenance of services

The Applicant shall be responsible for costs associated with relocating any services.

D.15. Demolition work

Demolition work must comply with the provisions of Australian Standard AS 2601-2001 *Demolition of Structures*.

D.16. Electrical works

All electrical works must be carried out by a qualified and licensed electrical contractor and installed in accordance with the relevant Australian Standards.

D.17. Plumbing and drainage works

If plumbing and drainage works are required, all plumbing and drainage work which are part of the Development must comply with the Plumbing Code of Australia and Australian Standard AS/NZS 3500 *Plumbing and drainage* and must be carried out by an appropriately licensed plumber.

PART E – PRIOR TO COMMENCEMENT OF USE

E.1. Completion certificate

Prior to the occupation of the building or the commencement of use which are part of the Development, an occupation certificate must be obtained from the Principal Certifier. A copy of the occupation certificate must be furnished to the Secretary prior to the occupation of the relevant buildings or commencement of use which are part of the Development.

E.2. Site Clean Up

Prior to commencement of use which are part of the Development, the Subject site must be cleaned and made good to the satisfaction of the Principal Certifier.

E.3. Removal of site notice

Any site notices or other site information signs must be removed upon completion of construction of the Development and prior to the commencement of use.

E.4. Plumbing and drainage works

If plumbing and drainage is installed, prior to the issue of the relevant occupation certificate, a Certificate of Compliance and Sewer Service Diagram must be provided to the plumbing regulator (NPWS Perisher Team) in accordance with *Plumbing and Drainage Act 2011*. A copy of the documentation must be submitted to the Department with the copy of the occupation certificate.

E.5. Electrical certification

Prior to the issue of the relevant occupation certificate, certification prepared and signed by an appropriately qualified electrician must be submitted to the Principal Certifier. The certificate must indicate that all electrical works which are part of the Development have been installed by a qualified and licensed electrician and installed in accordance with the relevant Australian Standards. A copy of the certificate is to be submitted to the Secretary or nominee with the occupation certificate documentation.

E.6. Fire safety certificate

Prior to the issue of the relevant occupation certificate, a fire safety certificate conforming to the EP&A (DCFS) Regulations must be submitted to the Principal Certifier. A copy of the fire safety certificate must be submitted to the Secretary or nominee with the copy of the occupation certificate.

E.7. Building upgrades

Prior to the issue of occupation certificate, the following documentation shall be submitted to the Principal Certifier:

- (a) written notice that the relevant upgrade works have been completed in accordance with Condition B.5 of this consent; and
- (b) certificates of installation from tradespersons responsible for carrying out the upgrade works.

PART F – POST OCCUPATION

F.1 Annual fire safety statement

An annual fire safety statement conforming to the EP&A (DCFS) Regulations must be provided to the Department and the NSW Fire Brigade every 12 months commencing within 12 months after the date on which the Department received the initial fire safety certificate for the Development.

ADVISORY NOTES

AN.1 Appeals

The Applicant has the right to appeal to the Land and Environment Court in the manner set out in the *Environmental Planning and Assessment Act, 1979* and the *Environmental Planning and Assessment Regulation, 2021* (as amended).

AN.2 Responsibility for other consents / agreements

The Applicant is solely responsible for ensuring that all additional approvals, licenses, consents and agreements are obtained from other authorities, as relevant. No condition of this consent removes any obligation to obtain, renew or comply with such additional approvals, licenses, consents and agreements.

AN.3 Other approvals and permits

The Applicant must apply to the relevant authority for all necessary permits including crane permits, road opening permits, hoarding or scaffolding permits, footpath occupation permits and/or any other approvals under Section 68 (Approvals) of the *Local Government Act, 1993* or Section 138 of the *Roads Act, 1993*.

AN.4 Utility services

- (a) The Applicant must liaise with the relevant utility authorities for electricity, gas (if relevant), water, sewage, telecommunications on the Subject site:
 - (i) to locate all service infrastructure on the Subject site; and
 - (ii) negotiate relocation and/or adjustment of any infrastructure related to these services that will be affected by the construction of the Development.
- (b) The Applicant is responsible for costs associated with relocating any services.

AN.5 Dial before you dig

Underground assets may exist in the area that is the Subject site. In the interests of health and safety and in order to prevent damage to third party assets please contact the Dial Before You Dig service at www.1100.com.au or telephone on 1100 before excavating or erecting structures (this is the law in NSW).

If alterations are required to the configuration, size, form or design of the Development upon contacting the Dial Before You Dig service, an amendment to this consent (or a new development application) may be necessary. Individuals owe asset owners a duty of care that must be observed when working in the vicinity of plant or assets. It is the individual's responsibility to anticipate and request the nominal location of plant or assets on the relevant property via contacting the Dial Before You Dig service in advance of any construction or planning activities.

AN.6 Disability Discrimination Act

The Applicant has been assessed in accordance with the *Environmental Planning and Assessment Act, 1979*. No guarantee is given that the proposal complies with the *Disability Discrimination Act 1992* (Cth). The Applicant is responsible to ensure compliance with this and other anti-discrimination legislation. The *Disability Discrimination Act 1992* (Cth) covers disabilities not catered for in the minimum standards called up in the Building Code of Australia which references AS 1428.1 - *Design for Access and Mobility*. AS 1428 Parts 2, 3 and 4 provides the most comprehensive technical guidance under the *Disability Discrimination Act 1992* (Cth) currently available in Australia.
