**Subject:** RE: Penrith Lakes Scheme Modification Application DA 2 MOD 6, DA 3 MOD 5 and DA 4 MOD 10 (Penrith LGA)

Dear Ms Gibson

The NSW Environment Protection Authority (EPA) received the Department of Planning and Environment's (DPE) email dated 17 October 2016 advising of Penrith Lakes Development Corporation Ltd's (PLDC) s75W modification application to extend operating hours of three Development Approvals (DA 2, 3 and 4) for the importation of Virgin Excavated Natural Material (VENM) and Natural Excavated Material (ENM).

The EPA has reviewed the associated documentation, which includes the Environment Assessment (EA) and existing Environmental Management Plan (EMP) and considers that the environmental impacts associated with the modification have been satisfactorily addressed.

Regards

**Alexander Spaller**
