Dear Daniel,

RE: DA8637 – Installation of TechnoAlpin Snowmaking Machine

Thank you for your correspondence of 27 August regarding the above DA.

As discussed with Peter Brulisauer, we propose that rather than have the DA withdrawn, that the DA is determined on the basis that salt or other additives are not used as a part of the snowmaking system.

If you require any further information to support this request, please contact me at adam.galvin@vailresorts.com.au or 0421 509 307.

Yours sincerely

Adam Galvin
Mountain Planning Manager
