While I reiterate my earlier submissions made two months ago on behalf of EcoTransit Sydney, I would like to emphasise one point.

Transport for this district is vital, and public transport infrastructure in particular, and I strongly recommend that the State govt and proponents of this project investigate thoroughly and create an all-weather underground walkway from Blackwattle Bay, via the existing Fish Markets IWLIR stop, to the new Metro station at Pyrmont. This would serve largely the same purposes as the [very successful] Wynyard Walk to Barangaroo.
