Please put more housing in the area and build separated and protected bicycle lanes so residents and people transiting through can safely get to their destination.

Rental prices in the area are increasing a lot as there is not enough supply for the demand. Also landlords are raising rates, perhaps due to mortgage pressure due to rising interest rates and inflation? However, salaries are not increasing at the same rate resulting in people sacrificing on essentials like food or heating.

There are currently no safe options for crossing Pymont Bridge Road for people that walk or cycle. Instead they are dashing into the middle while waiting for a gap in the traffic.

Pymont Bridge Road has a speed limit of 40 km/h but motor vehicles are going above this limit. Please include some traffic calming features like speed bumps or narrower sections.
