Re: Bus interchange on Figtree drive

Figtree drive is more like a residential block and there are so many young families with little kids and dogs crossing that drive to get to the train station way. So if there is a bus service on Figtree drive which will make that block a chaos for residents and bus users too. And also there will be more traffic coming off Australia ave once IGA is opened as IGA customers will use Pavilions car park on kookaburra lane off Figtree drive. Pls reconsider this bus interchange on Figtree drive. Pls keep this residential road safe and quiet. We have suffered a lot since the vaccine centre opened on Figtree drive since last year as people and cars all coming to the Figtree drive for their vax. Thanks

I agree to the above statement

Yes
