As resident, without doubt I think SOP has enormous potential to become one of the best town planning precincts in Australia.

It has been disturbing since we moved into one of the high rise residential buildings. Noise pollution caused by trains has been stressfully annoying.

According to the Masterplan, SOP is no longer for the sole purpose of sports and events. The plan should cover solutions to tackle noise and flange squeal by trains, so that SOP can truly become a highly suitable location for homes and a preferred location to live.

I agree to the above statement

Yes
