Integration APIs
Release Notes

Sep 2022

Overview

As part of the Department's commitment to improving the ePlanning Digital Services on the NSW Planning Portal, we regularly deploy fixes where required and introduce minor enhancements to APIs to support policy changes. These deployments occur on a monthly schedule and are backward compatible, meaning that code changes are not required at the stakeholder end.

This month's release note captures all fixes and enhancements that have been deployed under each digital service API. Some items may require configuration changes on the part of the stakeholders – see table below.

Please note that this document is designed to support the technical staff responsible for the maintenance of stakeholder APIs. It ensures that the integration between the ePlanning Portal and stakeholder IT systems continues to improve.

If you have any questions about the below updates, please contact us at ePlanningAPI@planning.nsw.gov.au.

Online DA Service APIs

Please note, these APIs operate between NSW Planning Portal and Councils/CADNSW

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-2483	DA V2	Council to ePlanning	ReviewRequestConsent	Document type 'Commencement Letter' is added as a conditional mandatory document when the consent authority approves the operational consent for DA applications. To support existing API consumers, we have provisioned backward compatibility which will allow the users to work as it is without any changes.	Councils using the DA are to review and consider adopting this enhancement when it is relevant to them.
INCAPI-2405	DA V2	Council to ePlanning	AcceptReturn	A new optional attribute 'isFeePayableunderPart13' is added to provide the ability for the consent	Councils using the DA are to review and

				authority to mark a modification DA as lodged on the day the application was submitted. This is applicable when no fee is required to be paid under Part 13. Applicant is also kept informed on the correct lodgement date and its process through the email notification.	consider adopting this enhancement when it is relevant to them.
INCAPI-2520 & INCAPI-2324	DA V2	Council to ePlanning	Determination	Following changes have been done to the determination API 1.A new attribute, 'dueDateForEvidenceAboutRelevantMatters' is added in the API. This is to track the period a consent authority may specify within which the applicant must produce sufficient evidence to the consent authority to enable it to be satisfied about the relevant matters. This field captures that information in accordance with Section 76(3) of the *Environmental Planning and Ass2essment Regulation 2021.* 2. Document type 'Notice of determination' is added as a mandatory document whenever the consent authority chooses the determination outcome as 'Deferred commencement consent'. To support existing API consumers, we have provisioned backward compatibility which will allow the users to work as it is without any changes.	Councils using the DA are to review and consider adopting this enhancement when it is relevant to them.
INCAPI-2465	DA V2	ePlanning to Council	Determine	Owing to the Machinery of Government (MOG) changes, the following value has been changed from	Councils using the DA are to review and consider adopting this

				Department of Planning, Industry and Environment to DPE - Department of Planning and Environment. The above change is incorporated 'approvedVariationAuthority' attribute's values. To support existing API consumers, we have provisioned backward compatibility which will allow the users to work as it is without any changes.	enhancement when it is relevant to them.

State DA Service APIs

Please note, these APIs operate between NSW Planning Portal and agency.

There is only one version currently supported by the Department (state DA V1)

Jira Ticket Ref	API version	Data Flow	Operations	Description	Action
INCAPI-2521	State DA V1	ePlanning to agency	UpdateAdditionalInfo	Request dates and the response dates in the updateAdditionalInfo API reported as not being sent appropriately, is fixed as part of this change.	No Action required.
INCAPI-2366	State DA V1	Agency to ePlanning	Determination	Following changes have been done to the determination API 1.A new attribute, 'dueDateForEvidenceAboutRelevantMatters' is added in the API. This is to track the period a consent authority may specify within which the applicant must produce sufficient evidence to the consent authority to	Agencies using the StateDA are to review and consider adopting this enhancement when it is relevant to them.

				enable it to be satisfied about the relevant matters. This field captures that information in accordance with Section 76(3) of the *Environmental Planning and Ass2essment Regulation 2021*. 2. Document type 'Notice of determination' is added as a mandatory document whenever the consent authority chooses the determination outcome as 'Deferred commencement consent'. To support existing API consumers, we have provisioned backward compatibility which will allow the users to work as it is without any changes.	
INCAPI-2484	State DA V1	Agency to ePlanning	ReviewRequestConsent	Document type 'Commencement Letter' is added as a conditional mandatory document when the consent authority approves the operational consent for DA applications.	Agencies using the StateDA are to review and consider adopting this enhancement when it is relevant to them.
INCAPI-2471	State DA V1	ePlanning to Certifier	CreateStateDA/UpdateStateDA	Owing to the Machinery of Government (MOG) changes, the following value has been changed from Department of Planning, Industry and Environment to DPE - Department of Planning and Environment. The above change is incorporated for the 'assessing agency' attribute's values and declarations.	Agencies using the StateDA are to review and consider adopting this enhancement when it is relevant to them.
INCAPI-2466	State DA V1	ePlanning to Certifier	Determine	Owing to the Machinery of Government (MOG) changes, the following value has been changed from	Agencies using the StateDA are to review and consider adopting

				Department of Planning, Industry and Environment to DPE - Department of Planning and Environment. The above change is incorporated 'approvedVariationAuthority' attribute's values. To support existing API consumers, we have provisioned backward compatibility which will allow the users to work as it is without any changes.	this enhancement when it is relevant to them.
INCAPI-2410	State DA V1	ePlanning to Certifier	FeedPaidandLodged	A new optional attribute 'isFeePayableunderPart13' is added to provide the ability for the consent authority to mark a modification DA as lodged on the day the application was submitted. This is applicable when no fee is required to be paid under Part 13. Applicant is also kept informed on the correct lodgement date and its process through the email notification.	Agencies using the StateDA are to review and consider adopting this enhancement when it is relevant to them.

Online Post-consent Certificate Service APIs

Please note, these APIs operate between NSW Planning Portal and IT systems of Certifiers (Private and Council)/CADNSW

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-2349	PCC V1	ePlanning to Certifier	IntentToCommenceWork	A new operation 'IntenttoCommentWork' is added to the outbound API that captures the certificate details/ dates that are relevant to commence work. This is valid for only PCC(PCA).	Certifiers using the PCC services are to review and consider adopting this enhancement when it is relevant to them.

Online Concurrence and Referral Service APIs

Please note, these APIs only operate between NSW Planning Portal and IT systems of relevant State Agencies.

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-2445	CNR V1	ePlanning to Agency	Create/UpdateCNR	Owing to the Machinery of Government (MOG) changes, the following agency name value has been changed from Department of Planning, Industry and Environment to DPE - Department of Planning and Environment.	No Action is required.

Common APIs (Program-level enhancements that impact the common operations utilised by several service APIs)
Please note, these APIs operate between NSW Planning Portal and IT systems of Private Certifiers and the relevant Council.
There are two versions currently supported by the Department (Common V1 and Common V2), however, Common V1 is reserved for consolidating the administrative functions (e.g. Document exchange, Reassign and Withdraw) that were previously repeated across multiple digital services.

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-2537	Common	ePlanning to Councils/Agencies	Create Submission	Owing to the Machinery of Government (MOG) changes, the following agency name value has been changed from Department of Planning, Industry and Environment to DPE - Department of Planning and Environment in the declarations that's available in the planning portal.	Councils/agencies using the PCC services are to review and consider adopting this enhancement when it is relevant to them.
