---

Good morning [REDACTED],

It was great to see the [REDACTED] draft GPEC Strategic Framework are on exhibition!

My team has feedback on these documents and would like to share it with you:

[REDACTED]  
[REDACTED]  
[REDACTED]

**Draft GPEC Strategic Framework:**

- Figure 10 and Figure 13 show only avoided land layer while it is recommended to show other CPCP layers such as certified urban capable land.
- Figure 14 does not show CPCP layers. It is required to show CPCP avoided land and include a clarification that the Potential Future Employment Ares is partially avoided land and future development would only be happening on the certified land.
- Utilities and Services map (page 68) and Transport map (page 72) do not show the CPCP layers where some of the proposed pipelines and linear infrastructure does cross avoided land and therefore the proposed infrastructure may need to address the CPCP Infrastructure Guidelines..
- Part 6 - implementation of the strategic framework is recommended to include the CPCP planning controls (Biodiversity and Conservation SEPP 2021 and section 9.1 Ministerial Direction).

Happy to discuss if you have any questions.

Best regards,

[REDACTED]
