

# Register for the NSW Planning Portal

To access the NSW Planning Portal digital services, you will need an account. This guide outlines each step of the registration process for the different user types.

Applicants who represent a larger consultancy firm or developer may find it beneficial to create and then register an account using a generic / shared email address. This will allow for greater transparency and visibility of applications submitted through the NSW Planning Portal for your organisation.

If you register using a shared email address, to mitigate security concerns, consider changing the password for this account when someone with access leaves the company.

## Getting started

1. Click on the link.	<a href="https://www.planningportal.nsw.gov.au/">https://www.planningportal.nsw.gov.au/</a>
2. Select My Account in the top right-hand corner to be directed to the login page.	
3. Click the Create account link to start the registration process.	
4. Selecting the user type will define the registration information you must provide and the type of user access that can be applied to your account. Following the selection of the user type, the create account area will open. Please view the relevant user type section below for additional information.

## User type: Applicant for Short-term Rental Accommodation Registration

STRA applicants with an existing NSW Planning Portal applicant account do not need to register again as they can use their existing account for their STRA registration requirements. The same applies for registered STRA users, who will be able to use their account for other applicant services.

Both the Applicant for Development Applications, Complying Development Certificates, etc., and Applicant for Short Term Rental Accommodation (STRA) Registration user types have the same user privileges, and these users need only register for one NSW Planning Portal account.
